

PUNTE PER METALLO

PUNTE ELICOIDALI DIN 345 HSS RULLATE 118° CODOLO CONICO MORSE

- Punte elicoidali rullate a codolo conico Morse DIN 345 con angolo del tagliente di 118° ed elica destra.
- Applicazioni: capacità di forare i più comuni **metalli** grazie all'alta flessibilità ed alla resistenza alla rottura della punta. Da utilizzare su trapani a colonna.
- Imballo: singolo in astuccio plastico.
